

25X1A  
[REDACTED]-3958-62

7 November 1962

**MEMORANDUM FOR: Director of Central Intelligence**

1. This memorandum is for information only.
2. You may recall that on 3 November ([REDACTED]-3954-62) 25X1A I advised you that Dr. Charyk was attempting to amend the various alert plans so that AF assets would not be withdrawn automatically from certain intelligence functions. Today Dr. Charyk told me that this attempt had been successful insofar as those individuals involved in capsule recovery and nuclear test detection programs are concerned. Such individuals will not be automatically withdrawn until the consequences of such withdrawal have been evaluated.

HERBERT SCOVILLE, JR.  
Deputy Director  
(Research)
